

Instructions:

Do this only once:

1. Download "TD lines" from Downloads section.
2. Start your Metatrader 4 program. On the upper left of your Metatrader 4 workspace open FILE/OPEN DATA FOLDER and then open MQL4/INDICATORS. Insert the "TD lines" file there.

Do this every day:

3. Start your Metatrader 4 program. On the upper left of your Metatrader 4 workspace open FILE/OPEN DATA FOLDER and then open TEMPLATES folder.
4. Copy 4 new files (Trader Dale-EURUSD.tpl, Trader Dale-AUDUSD.tpl, Trader Dale-USDCAD.tpl and Trader Dale-USDJPY.tpl) there.

5. Open EUR/USD chart and right-click on it. Choose TEMPLATES/TD-EURUSD
6. Repeat step 3 for other forex pairs (AUDUSD, USDCAD and USDJPY)
7. Now you should be able to see my intraday levels for 4 currency pairs shown in your charts:
